

Mini Project(MedSnap**)**

Name: ABHISHEK P ADYANTH S ADYAA G B	SRN: PES2UG23AM002 PES2UG23AM007 PES2UG23AM006
<u>PROJECT TITLE:</u>	
<div><u>MedSnap</u> Data Management</div>	
<u>PROJECT ABSTRACT:</u>	
<p>This project aims at developing software for Hospital Data Management. It includes a robust multiple method login and signup pages. The home page has all the details of the patient, and a toggle for multiple patients. It has many fields such as Scan reports, Prescription, Receipt etc. The main attraction of MedSnap is that it has a QR Code based login for convenience.</p>	
<u>TOOLS USED</u>	
HTML, CSS JavaScript React Js, Node Js MongoDB Compass	

SCREENSHOT/WIREFRAMES

A wireframe of a login and sign-up interface on a dark gray background. It features two light gray input fields for 'username:' and 'password:'. Below the password field is an orange 'Login' button. To the right of the 'Login' button is a link that says 'Forgot password...'. Further down, there is a light gray 'Sign up' button, followed by the word 'or' in bold, and then an orange-outlined light gray button that says 'Sign up with Google'.
