EDUCATION

PES University

Bachelor of Technology in Computer Science and Engineering (specialization in AI and ML)

Bangalore, India

Aug 2023 – Aug 2027

Courses: Data Algorithms and Analysis, Linear Algebra, Machine Learning, Advanced Data Analytics, LLMs, XAI, DBMS, OS

Base PU College, RNR

Bangalore, India

Pre University (PCMc)

May 2023

II PUC Annual Examination (March 2023): 94.50%

Bishop Cotton Boys' School

Bangalore, India

LKG to Class X

March 2021

Class X Board Examination (ICSE) (March 2021): 95.16%

SKILLS

Programming Languages: Python (proficient), Java (intermediate), C/C++ (moderate), R (basic)

Machine Learning: PyTorch, Keras, TensorFlow, Pandas, NumPy, Scikit-learn, Ollama

Web and Frameworks: HTML, CSS, JavaScript, MERN stack, Spring Boot, Streamlit, Flask

Cloud: Vercel, Firebase, Azure, AWS

Database: MongoDB, SQL, PostgreSQL, Redis, Neo4j, ChromaDB

Other: Kernel Programming, SHAP, LIME

RESEARCH/PROJECTS

Radiation Pollution and its impact on living creatures in and around Bangalore (*Tektronix RSA306, Linear Regression*)

- Collected radiation samples using RSA306 to predict future increases in values above the WHO threshold.

DrugXplain – Adverse Drug Interaction Prediction and Clinical Explanation using Graph Neural Networks and Medical LLMs (*GNN - PyTorch Geometric, ChromaDB, LLM, Streamlit, PyVis*)

- Processed raw drug data by decomposing each drug into toxins. Each toxin becomes a node, relations form edges.
- Trained a GCN-based link prediction model, the top 200 high-risk interactions are analyzed using LLMs.

E-Learning Platform (*React-Vite, Java-Spring Boot, MySQL Workbench*)

- Web-based Learning Management System (LMS), a seamless, interactive environment for students and teachers.

Personal Loan Acceptance Prediction (*Streamlit, Scikit-learn, Pandas, Python*)

- End-to-End ML pipeline using a trained MLP classifier allowing a CLI with a user-friendly interactive Web UI.

PDF Extraction Playground (*Next.js, FastAPI, TailwindCSS, pdfplumber, pytesseract*)

- Full-stack playground for PDF text and table extraction with OCR support, Next.js frontend and FastAPI backend.

AEO-Tracker (*Next.js, React, TailwindCSS, shadcn/ui, Supabase-PostgreSQL with RLS, OpenAI GPT-4o-mini*)

- A multi-tenant application that tracks brand visibility across AI search engines(ChatGPT, Perplexity, Gemini, Claude).

MedSnap (*MERN stack, MongoDB Compass, HTML, CSS, JS*)

- Hospital Management System with modern APIs, multiple login methods, extendable QR-based login for easy access.

Fitium (*Python, Tkinter, Pylar*)

- Fitness Monitoring System, tracker-cum-analyzer using weight, height, etc. for modern health analysis.

ACHIEVEMENTS/CERTIFICATIONS

Winner - Swasthya Avishkar Hackathon 2025 organized by CoDMAV, PES University and Carelon Global Solutions

Top 7 Finalist - Triverse Ideathon-2025 organized by C3I, PES University and HCLTech

2nd RunnerUp - Prakalp Hackathon as a part of Pioneer-24, National-Level Technical Event by KITCoEK with GoI, DST NIDHI

1st RunnerUp - Treasure Hunt of Samkalanam-2024 as a part of Math Day-2024 organized by Dept. of S&H, PES University

14th Rank - Good Coder Competition(GCC) Hackathon (342 registrations, top 50 recognized) by Dept. of S&H, PES University

Career Essentials in Cybersecurity, Data Analysis and Generative AI by Microsoft and LinkedIn | Problem Solving-Hackerrank
